

# TAROT AND AURA READINGS

**H**ello my name is Mary.

I have seen auras since childhood, I came to like non traditional cards as my favorite tangible tool. The aura gives me a feel for someone and when using cards I get clairsentient messages. Each reading for me is a chance to grow and learn. My professional career began in the Northwest back in the '80s upon my meeting a friend and mentor. Someone who not only guided my learning but encouraged me to do this professionally. Each year doing so has become my true passion and love to do.

A reading is a road map and becomes a mirror so that I may reflect the information back to you. It starts with validation. Things that a person wants to know someone else sees beyond themselves. Then becomes an awareness of what may help make choices and decisions. Prediction and destiny are defined by your free will.

Choosing to do a reading, it is about remaining open to what is presented and allowing yourself time to think over the information. No matter what unfolds, this experience is an opportunity to make changes or to know that you are doing exactly what you need to be doing.

In 30 years and still going, I have read at street and psychic fairs, bookstores, one on one privately and at parties, in chat or by phone and even a haunted house or two. If you have an interest in doing a reading, please reach out, I would love to be of help.

Available for appointment.  
In Store Sat - Sun
